PROFILE

Enthusiastic Computer Science undergraduate with good foundations in **Data Science and Machine Learning**. Experienced in real-world projects involving **predictive modeling and data visualization**. Skilled in applying analytical and programming expertise to solve problems and seeking opportunities to grow as an Python Developer or **ML Intern**.

EDUCATION

RBSETC, Agra | **Bachelor of Technology** in Computer Science & Engineering — *Agra, India*
CGPA: 7.19 (till 7th sem) — 2022 – 2026

Intermediate — *Agra, India*
PCM: 68% — 2021 – 2022

HighSchool — *Agra, India*
SCIENCE: 73.33% — 2019 – 2020

SKILLS

Programming: Python, C, Java, SQL
Libraries/Frameworks: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, TensorFlow, Streamlit, Flask, React
Database & Tools: MySQL, Excel, Git, Google Colab
Concepts: ML, Deep Learning (Basics), Time-Series Forecasting, Data Preprocessing, Data Visualization, OOP

CERTIFICATIONS

- Java Online Course – Great Learning *(link)*
- Python Professional Course – Infosys Springboard *(link)*
- *Machine Learning* – HCL Guvi (link)

EXPERIENCE

Mu-zero Technologies Pvt Ltd. — *Noida, India*
Software Intern — Oct-2025 – present

- Developed and implemented AI-based software solutions using Python and machine learning techniques.
- Integrated ML models into backend systems to improve automation and decision-making workflows.

ADRDE, DRDO, Ministry of Defence, Govt. of India — *Agra, India*
AI/ML Trainee — June-2025 – July-2025

- Built ML model for altitude-based wind speed prediction (upto 26 km) using **NOAA meteorological data (2020–2025)**.
- Gained exposure to **data preprocessing, time-series analysis, and ML deployment** in a defense R&D environment.

PROJECTS

Sentiment Analysis — Sep-2025 – Oct-2025

- Built a machine learning–based Sentiment Analysis model using NLP for opinion classification from text data.

Wind Speed Prediction System — June-2025 – July-2025

- Built ML & LSTM models on NOAA data for wind forecasting up to 26 km with a Streamlit dashboard.

Recommendation System — Mar-2025 – May-2025

- Built a personalized recommendation engine using collaborative and content-based filtering.

LANGUAGE

- **Hindi** – Native, **English** – Spoken
